

## Who we are

Devon Link Up started in 1991 with the aim of giving people a voice and choice about their lives.

Advocacy is important in everything we do and we are a user led charity.

We always include people in planning all our work.

We want to make sure we are always listening and that we do the things which people want.

## Contact Us

If you would like more information about any of our work, please contact us.

Supporting people with learning disabilities and Autistic people who live in Devon

Devon Link-Up is a registered charity - 1052687

## Advocacy

Advocacy is about supporting you to communicate your thoughts, wishes, needs and feelings.

Advocacy makes sure you are listened to and that you get your rights.

Advocates work with you and do not tell you what to do.

Our advocates can support parents with learning disabilities who are going to Court.

Our advocates are fully trained.

## Heathfield Farm

Heathfield Farm is a 32 acre farm we run with the help of the National Trust.

The Farm helps people to learn new skills to help them find work. You can learn about growing plants, woodwork, cooking and making things.

The farm helps everyone enjoy nature and the outdoors.

If you would like to know more, please contact Karen on 01392 468191.

## Engagement

We have regular meetings where people can talk about things that are important.

Our groups work to help make changes so that services are better for people.

Come and join us for a chat and meeting friends.

## Easy Read Information

Sometimes information is difficult to understand.

Devon Link Up can make information easy to read and we can provide training for other people.
